

As residents of the State of Wisconsin, the Wisconsin No-Call List has greatly diminished the amount of intrusive telemarketing calls that interrupted our "at home" time. We urge the FCC to resist the petition (CG Docket No. 02-278) of the Banking Association or any other group that is trying to weaken the Wisconsin No-Call rules. If we need something, we will chose the time and place to contact the company/services at our discretion which I'm sure will be during normal business hours--not when we are sitting down to eat supper.
